Step 5
Mount the Frame and End Pipe to the Table top as illustrated above. Please refer to **Page 2 Torque Guide**.

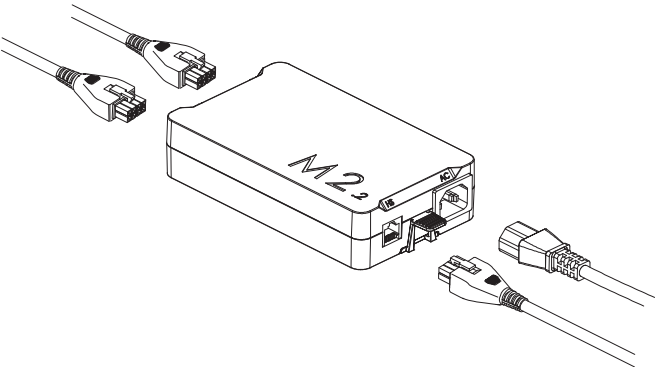

Step 6
Mount the Control Unit Bracket as illustrated above. Please refer to **Page 2 Torque Guide**.

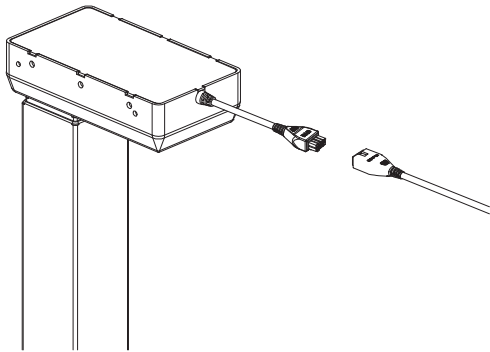

Assembly Instructions

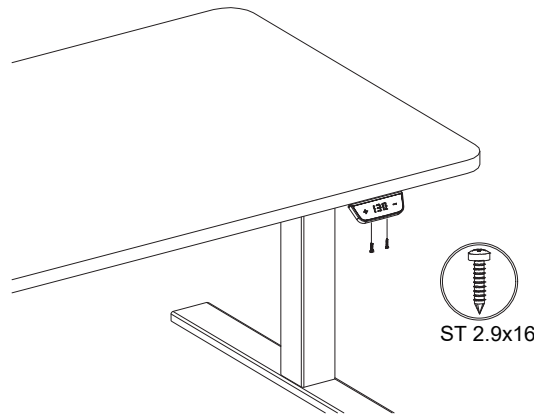

Step 7
Mount the Control Unit as illustrated above.

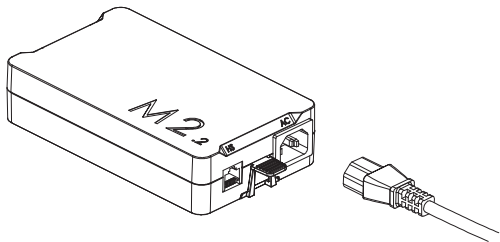

Step 8
Connect the Cables to the Control Unit as illustrated above.

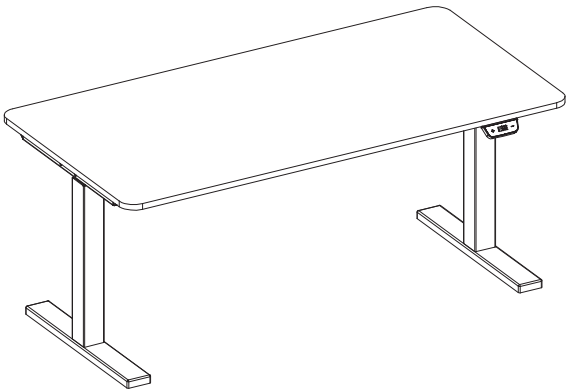

Step 9
Connect the Connection Cable to the Leg as illustrated above.
Do not put power to the system before it is fully assembled.

Step 10
Mount the Remote Control to the Table top as illustrated above.
Please refer to Page 2 Torque Guide.

Step 11
Connect the Remote Control Cable to the Control Unit as illustrated above.

Step 12
Perform Zero Setting.

Zero Setting

When you use the height adjustable frame for the first time, you have to reset the lowest desktop position to the minimum height.

- Press ▼ button and keep pressing it until the desktop has reached the lowest position (programmed desktop position).
- Press ▼ button again and keep pressing it. After about 5 seconds, the desktop will slowly move further down until it reaches the absolutely lowest desktop position possible.
- Release ▼ button. The electric height adjustable frame can now be used.
