

User Guide

Artificial plants can be used in various settings such as homes, offices, restaurants, hotels, retail stores and any other indoor spaces where real plants may not thrive or be practical.

Align the separated parts with the corresponding holes and assemble them together.

Simply wipe the surface with a slightly damp cloth as part of your daily maintenance routine.

1. Placement:

- Avoid direct sunlight and place in a cool, well-ventilated area.
- Keep away from heat sources or air conditioning outlets to prevent drying.
- Place on a stable, flat surface to prevent accidental falls and damage.

2. Environmental Safety:

- This product does not contain any harmful chemicals and is safe for indoor use.

3. Decorative Accessories:

- Complementary items such as pots, stands, etc. can be used to enhance the overall decorative effect.
- When coordinating, pay attention to color and design compatibility to create a natural, harmonious appearance.

4. Disclaimer:

- This is an artificial plant and does not have any living or growing functions.
- Please follow the instructions to avoid any personal or property damage during use.
