

Solar Lawn Light

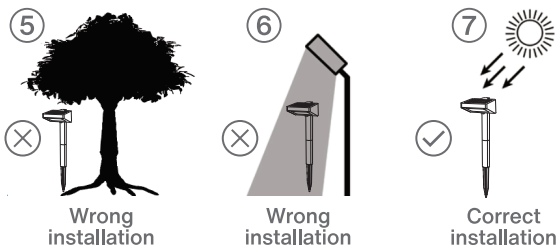

Thank you very much for your support on our product.
If you have any problems, please feel free to contact us.

USER MANUAL

NOTE

1. Please make sure you have Turned On the light before using, and charge the solar lawn light under direct sunshine at least 8 hours for the first time.
2. In cloudy weather or winter, charging time may be longer and working time may be shorter, which is normal for solar lamps and should not be considered as quality problem.
3. If the ground is too hard, do not twist or hammer it with force. Try to soften the ground with water and then insert into the ground.
4. Please turn ON/OFF switch before installation.
5. Do not install the solar lights in shaded or sheltered places.
6. Do not install the solar light in a place where the light shines.
7. Be sure to turn on the switch and install it in a location where the sun can shine directly on the solar panel.
