100142-7 • RAIN 17.5"H Sconce

17.5H x 10W x 5.5D

This LED sconce captures the beauty of motion suspended in time—artisan-blown glass “rain” drops infused with swirling mist and illuminated from within. Offered in Silver, Gold, or Copper drops, each paired with clear and black droplets and complemented by a hand-applied ombré finish that enhances its luminous depth.
