IMPORTANT INFORMATION

Please check all parts and components to ensure that there are no damages or missing items before starting the assembly of the product.

• If using power tools, set them to the lowest setting to avoid damaging the parts.

• Assemble on a soft surface such as a drop sheet or rug to avoid scratching.

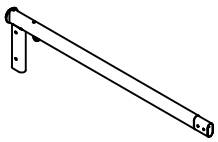

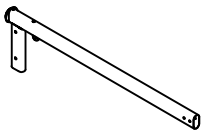

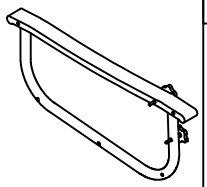

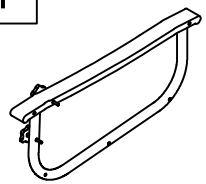

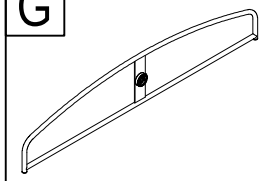

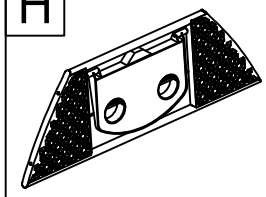

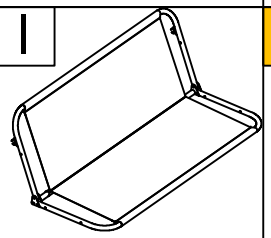

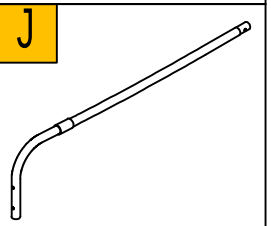

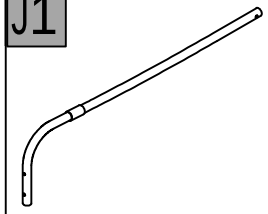

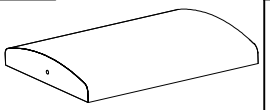

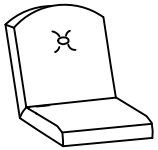

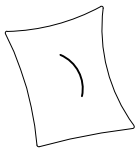

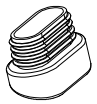

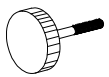

• For easy assembly, it is recommended that two people assemble together.

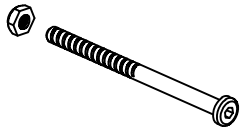

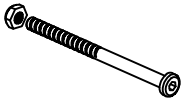

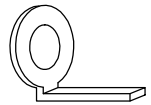

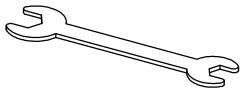

• We recommend using an electric screwdriver for faster installation.

• Tips: When installing the screws, insert all of them loosely frst, then tighten them once everything is in place.

STEP1

A*2

B*2

W*4

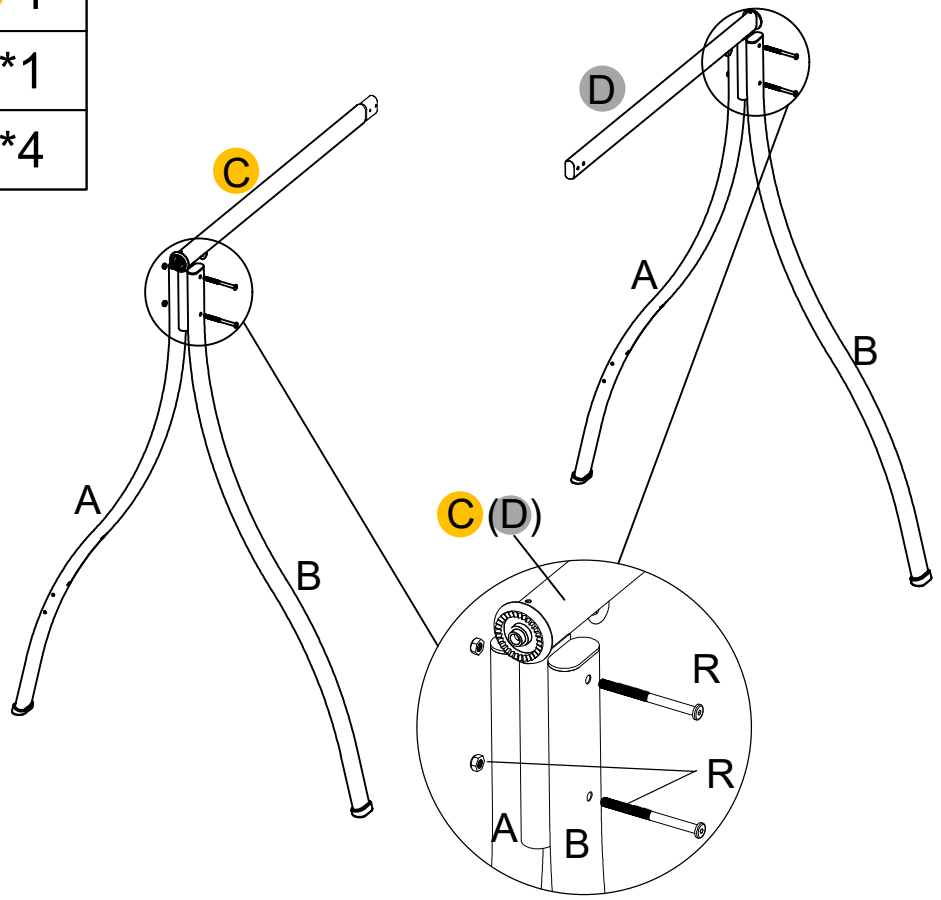

Install plastic anti-slip foot caps on the rods. Afterwards, ensure that **Part W** is securely fastened and does not fall off when shaken.

STEP2

C*1

D*1

R*4

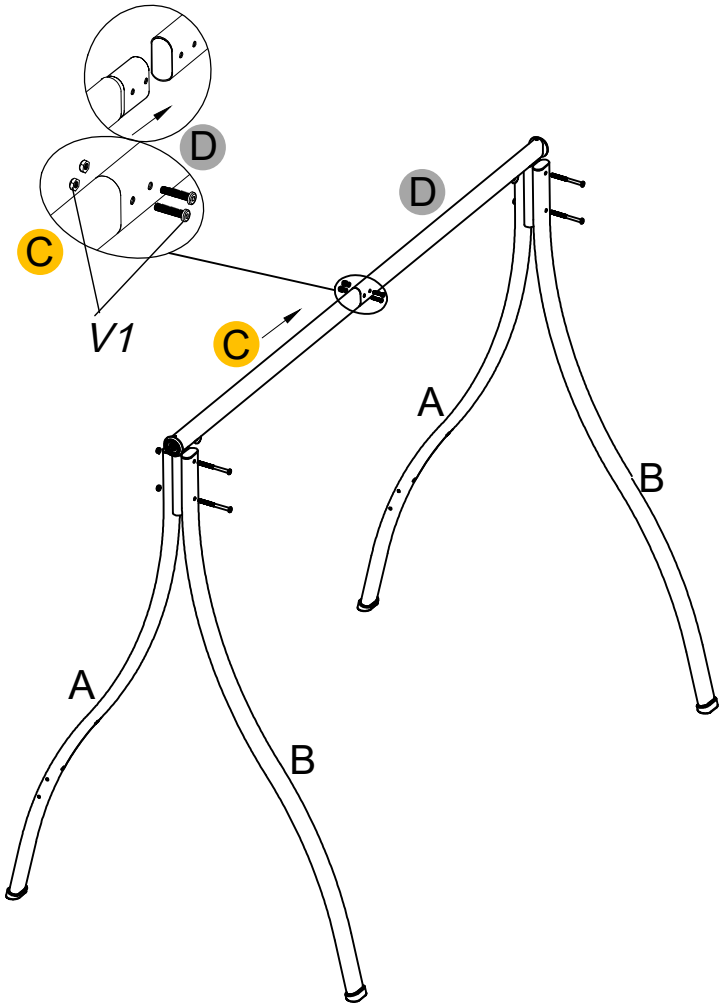

Align holes before inserting the screw **Part R**, install each screw **LOOSELY** first for smooth assembly later.

Note: Assemble with multiple people.

STEP3

V1*2

Match **Part C** with **Part D**, then insert **Part V1**.

Note: Lightly scrape small amount of coating from **C**'s surface to ease install, if needed.

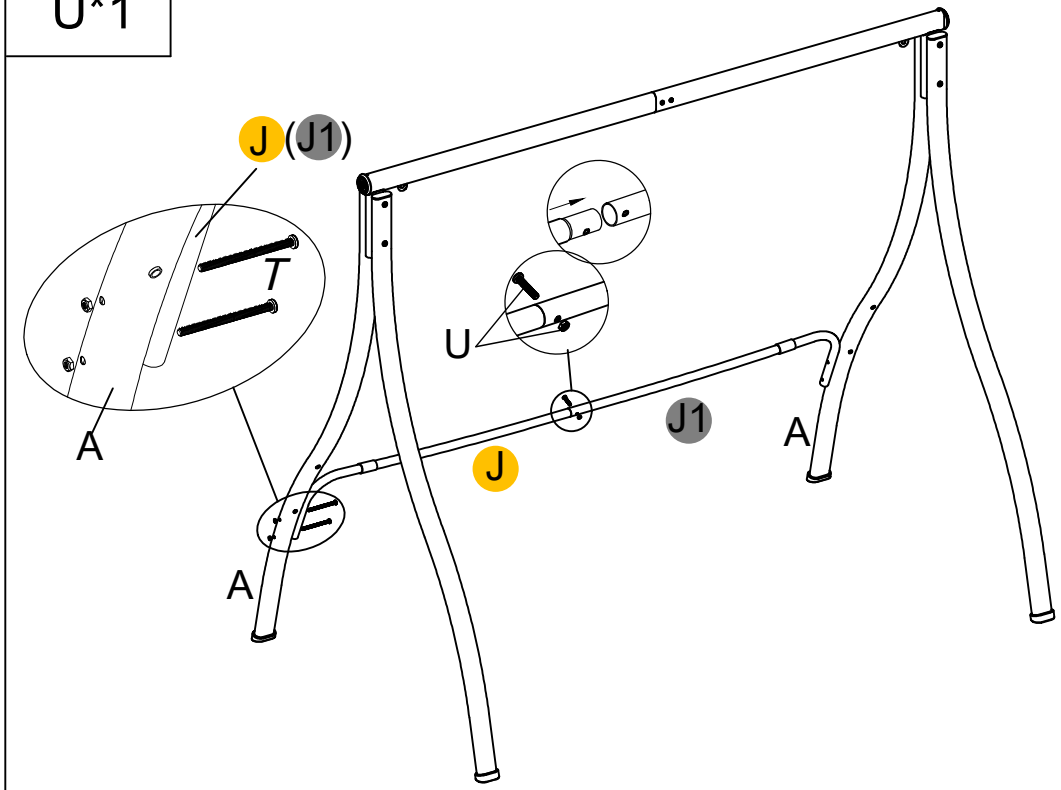

STEP4

J*1

J1*1

T*4

U*1

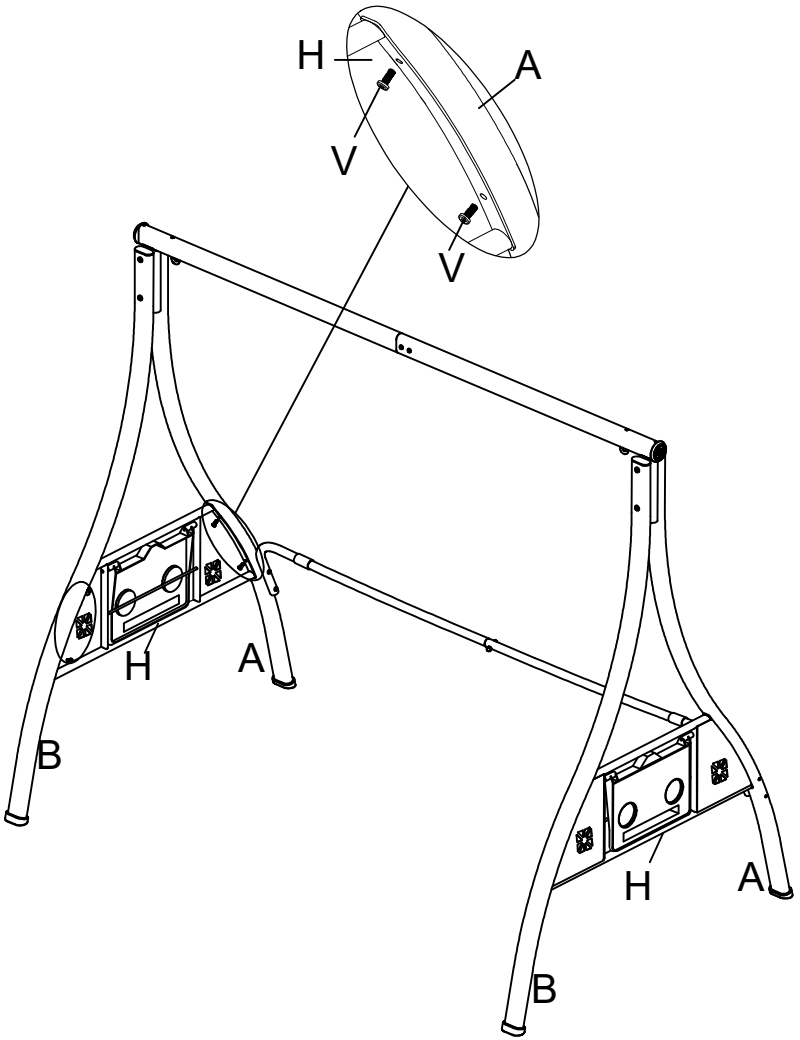

Match **Part J** with **Part J1**, then insert **Part U**, assemble **J** & **J1** on to **A**.

Note: Lightly scrape small amount of coating from **J**'s surface to ease install, if needed.

STEP5

H*2

V*8

Install **Part H** on the swing frame by fastening **Part V** to **Part A & B.**

Note: Install one screw on **Part A & B** first for easier assembly.

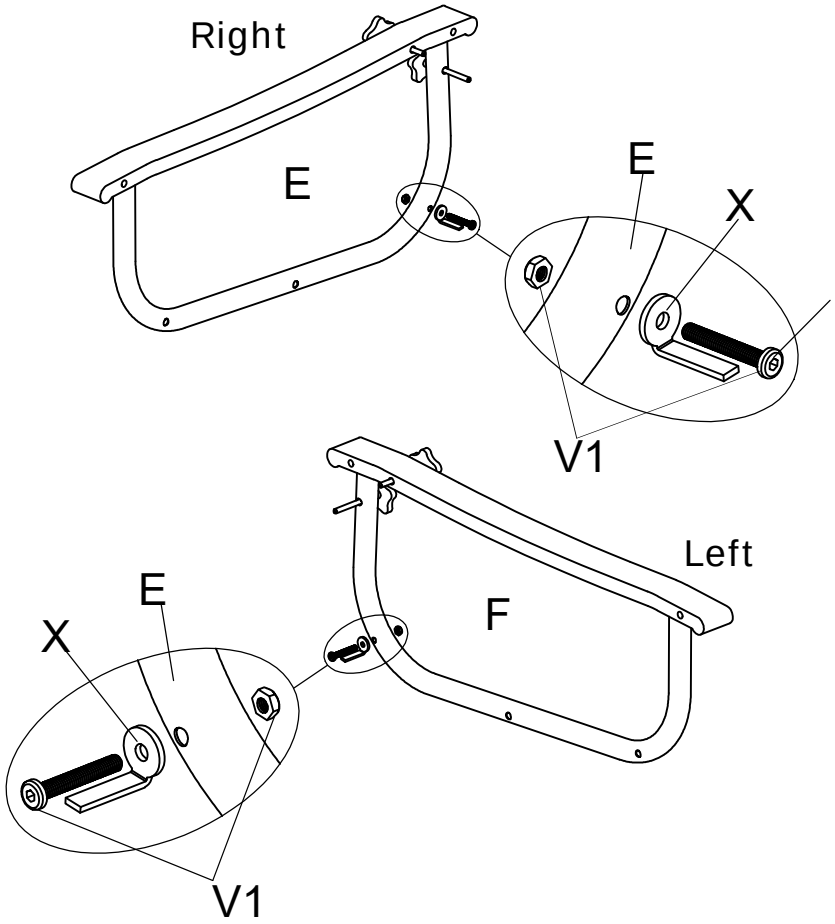

STEP6
