The goods

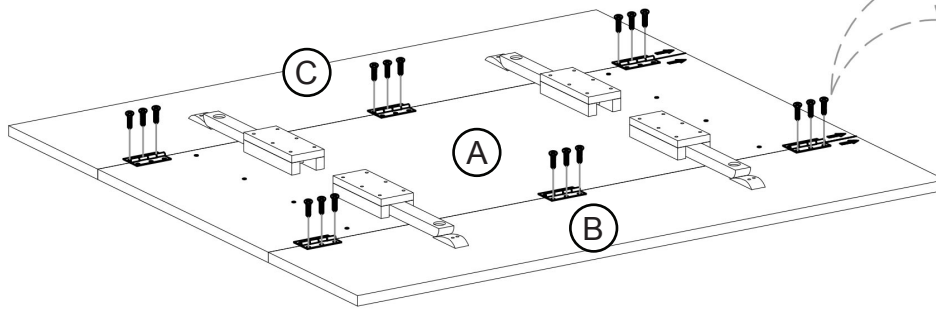

Step 1

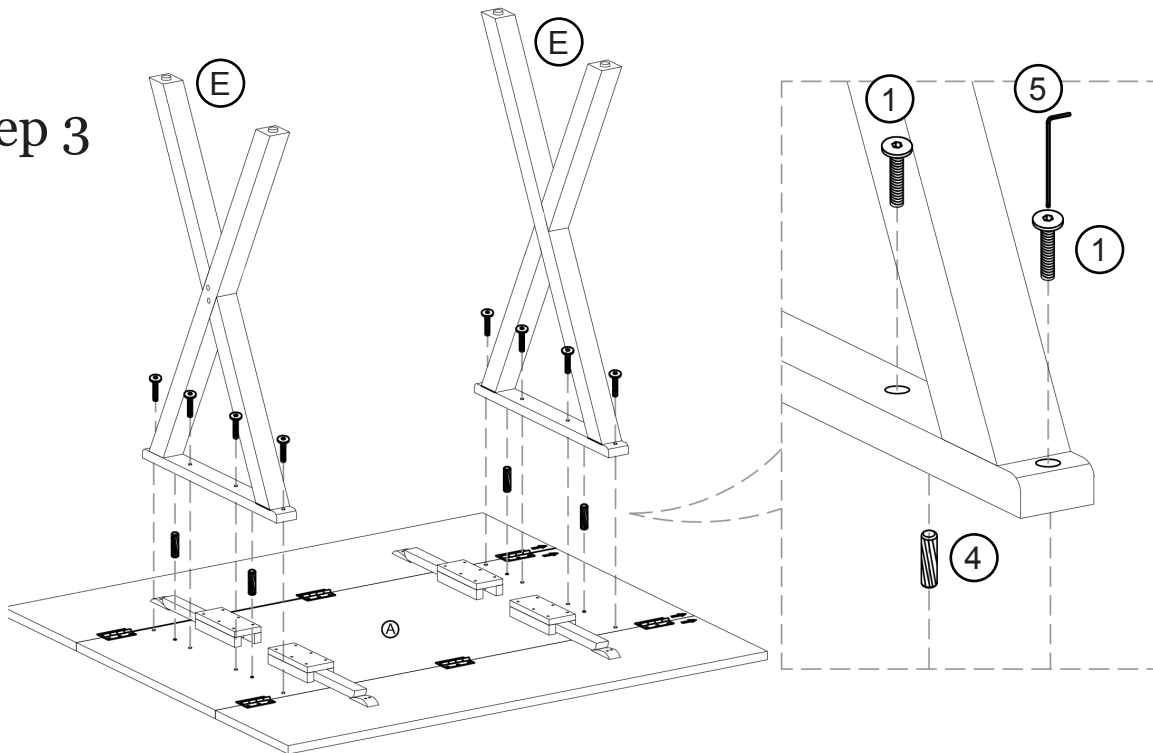

Step 2

If you're feeling adventurous, whip out the drill to speed up your assembly time.

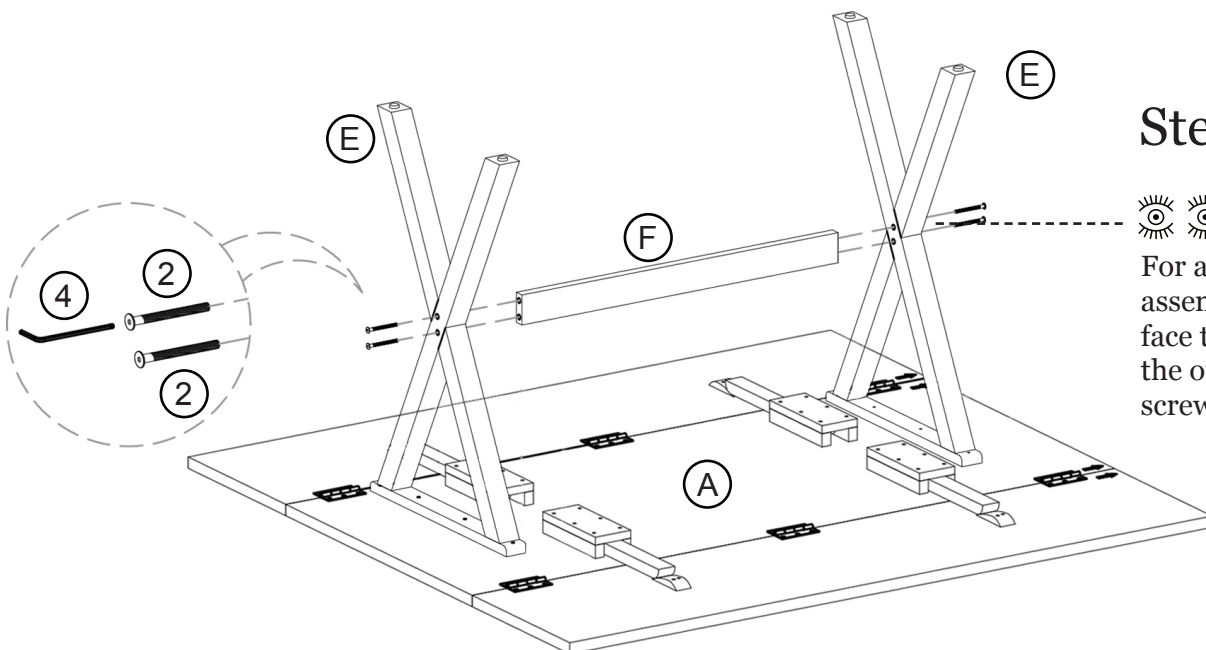

TIP: You don't need to follow the pre-drilled holes. Make sure leaves are flush and apply pressure when using screw driver.

Step 3

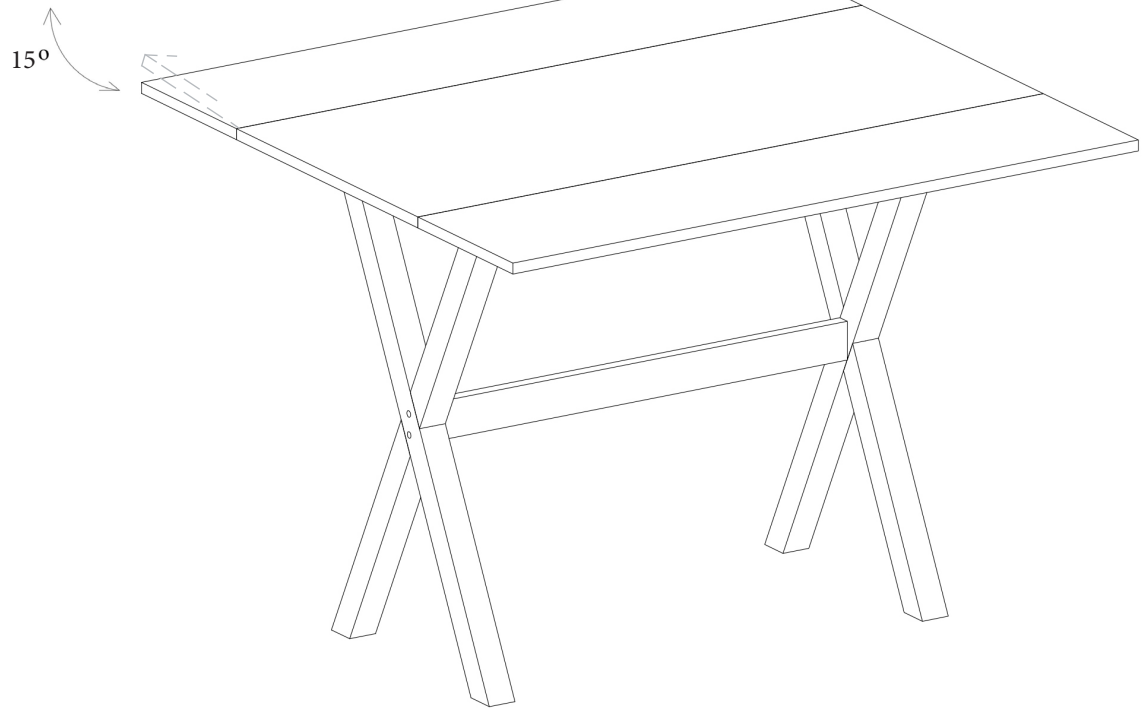

Step 4

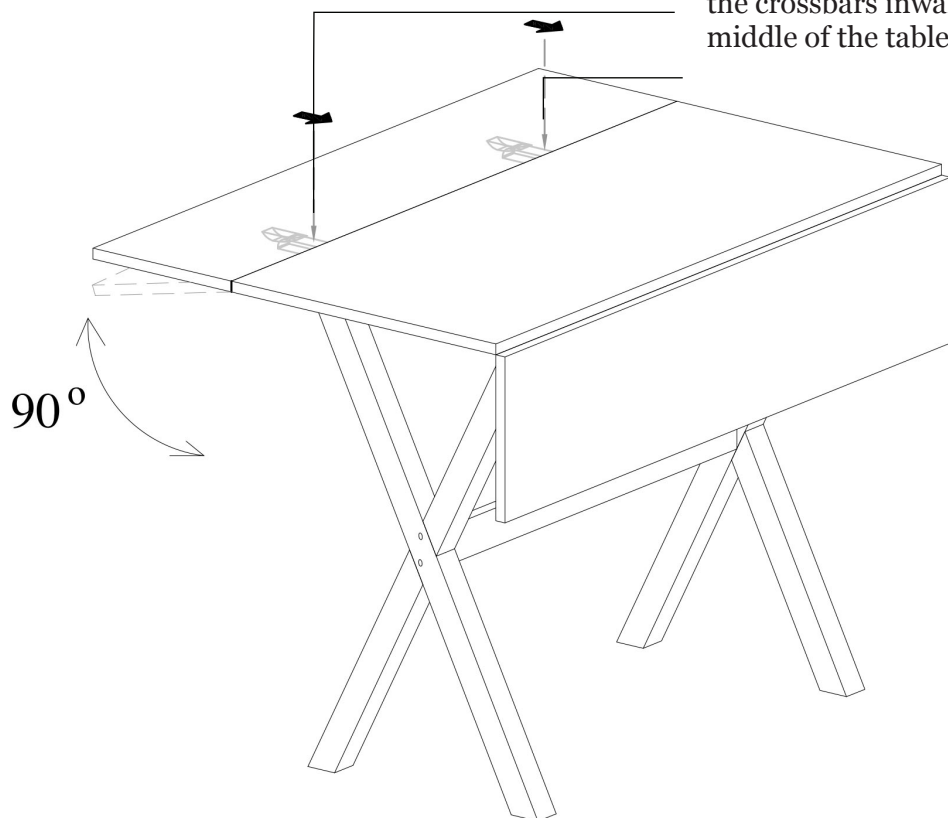

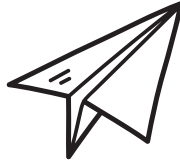

For aesthetics, when assembling the "X" legs, face the larger holes to the outside. Otherwise screws will be exposed.

For the table to be extra sturdy lift the drop leaf an extra bit and really pull the support bar tight against edge.

If you want to drop it like it's hot, hold the side of the table and slide the crossbars inward towards the middle of the table.

We really don't want you to go through the hassle of re-packaging your item
and sending it back, because let's be honest...nobody has time for that.

Safety first, fun later.

We want your drop leaf table to last as long as possible, so we recommend that you tighten the screws 2 weeks after assembly and for added safety check the tightness of all screws every 2 months.
