

Instruction Manual

Flower Care Function :

Remove the bottle and fill it with water to about 2/3 capacity (do not fill completely to prevent overflow);

Insert fresh flowers/green plants, then place the bottle back onto the base (replace water regularly).

Desk Lamp Function :

The base features a USB power cable;

Use the power cable's switch button to cycle through three light modes: Warm Light / White Light / Natural Light. Adjustable brightness is available.

Precautions :

Avoid spilling water onto the base during filling (the base contains electronic components susceptible to water damage);

When cleaning the bottle, remove it and wipe with a damp cloth;

To clean the base, disconnect the power and wipe with a dry soft cloth—do not wash with water;

Avoid using in high-temperature or humid environments (such as bathrooms) to prevent electrical malfunctions;

Before moving the product, disconnect the power and empty the bottle to prevent liquid leakage or component damage.
