**Designed for atmosphere.
Developed for hospitality.**

At Graypants, we believe good lighting is more than just illumination — it's a feeling. A sense of warmth, intention, and beauty. That's why we created Wick PRO — the next evolution of our iconic portable battery lamp: Wick. Inspired by the romance of a candle and engineered for professional use, Wick PRO brings storytelling, design, and performance together in one seamless hospitality solution. All while offering a more sustainable and cost-effective alternative to traditional candles — without compromising on atmosphere or air quality.

A design icon, reimagined for the professional setting

Wick PRO preserves the timeless silhouette and poetic glow of original candle light. Wick is a cordless table lamp beloved for its sculptural charm and for intimate settings. But this version was crafted with the demands of modern hospitality in mind. From terrace dinners to lobby lounges, Wick PRO adapts to every environment, indoors and out.

Dimensions

Wick PRO

Ø 4.7, H 10.2 (in)
Ø 12, H 26 (cm)

Wick S PRO

Ø 4.7, H 6.4 (in)
Ø 12, H 16,5 (cm)

Up to **150-hour battery life**, multiple brightness settings, and a Candle Mode that gently flickers to create the effect of real candlelight

Touch-sensitive dimming or **remote-operated** for ultimate flexibility

IP65 rating for **outdoor durability** — rainproof and ready for any setting

Remote control to **manage multiple Wicks** at once

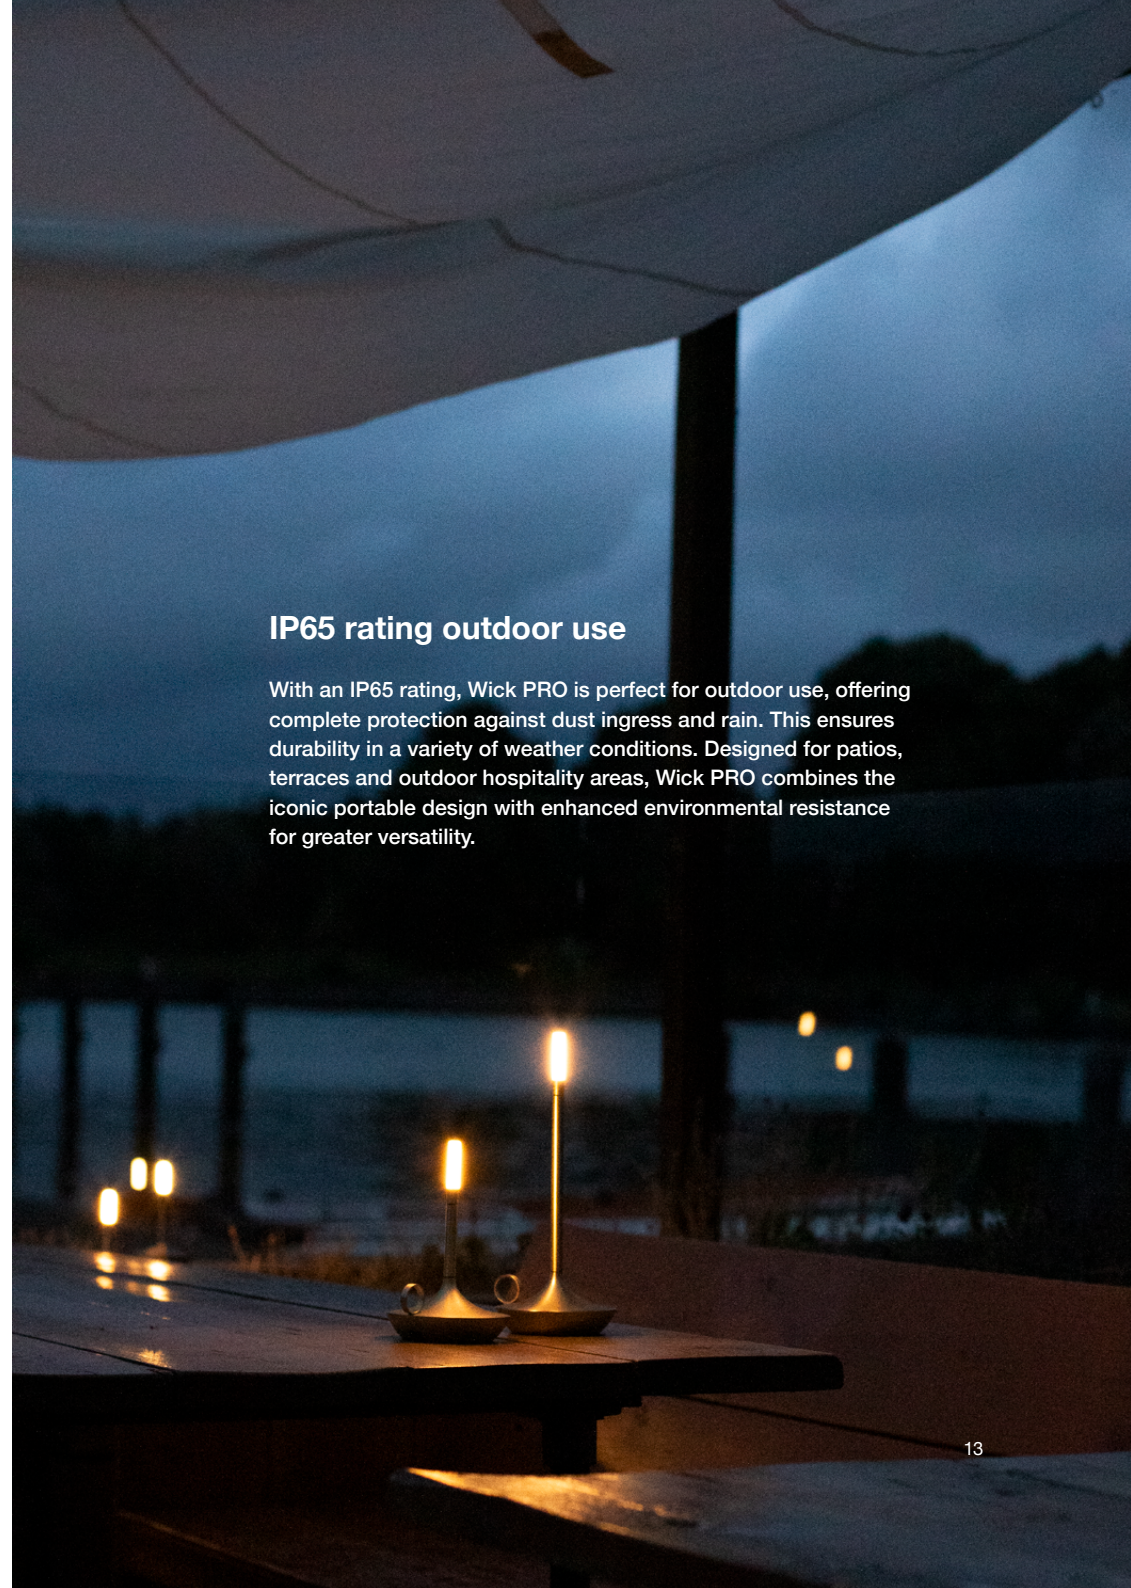

Energy-efficient LEDs with a warm, candle-like glow

Real-time battery level indicators make it easy for staff to identify which units need charging before the next shift

Pays for itself in 1 - 1.5 years compared to daily candle use per table

Zero emissions, a cleaner and healthier alternative to traditional candles

Repairable battery for extended product lifespan and reduced waste

IP65 rating outdoor use

With an IP65 rating, Wick PRO is perfect for outdoor use, offering complete protection against dust ingress and rain. This ensures durability in a variety of weather conditions. Designed for patios, terraces and outdoor hospitality areas, Wick PRO combines the iconic portable design with enhanced environmental resistance for greater versatility.

Designed and developed for the demands of hospitality

From intimate dining tables to beautiful hotel patios, Wick PRO is designed to enhance atmosphere while simplifying logistics. No wires, no hassle, just intuitive controls and beautiful design that fits right in — whether you're serving dinner for two or hosting a hundred guests.

The finishing touch your guests will remember

Hospitality is about making people feel at home — even in a space that's not. Wick PRO adds soul to every table, bar and lounge and elevates the experience of your guests, and helps your brand stand out through considered details.

Smart and scalable

Wick PRO was designed with hospitality in mind. And with the new group functions and stackable charging tray, it's now easier than ever to manage ambience at scale. Use the remote to control up to 100 Wicks at once: turn them on or off, dim them to one of four levels, or check battery levels in seconds. And when it's time to recharge, the stackable charging tray holds up to 8 Wicks per layer, making it simple to scale, store, and stay ready.

Group functions via a remote control: turn on/off, dim (4 levels), or check battery levels

Charging tray holds up to 8 Wicks and is fully stackable — scale up with ease
