Step 3

1. We separate the arms equally into 2 groups. Naming one "A Group", and the other "B Group". Each arm has a wire labeled "L" and another "Non-L".
2. Connect all the "L" wires of group A to the spare wire provided to create a leading wire. Connect the leading wire to the "L" wires of group B and main "L" wire on the centerpiece. Repeat the process for the wires labeled "Non-L"
(The bottom line is all the "L" wires connect together, All "Non-L" wires connect together.)

Step 6
