Installation Drawing

①

Splicing sequence of aluminum rod

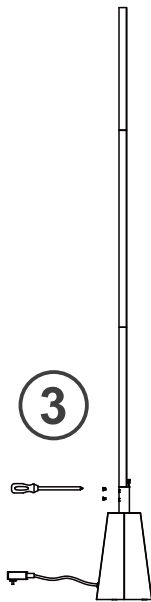

②

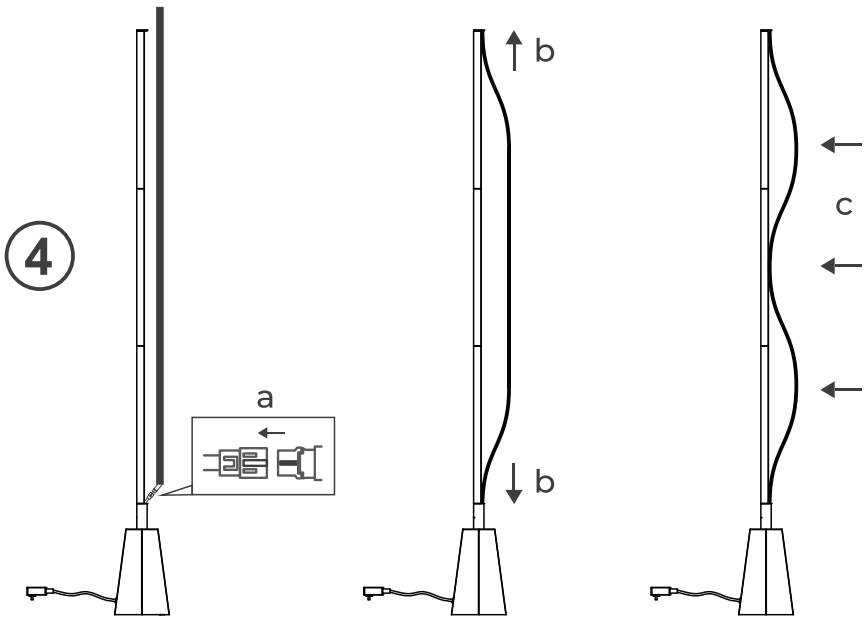

Splicing and assembling three aluminum rods

③

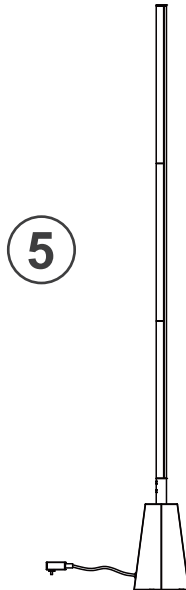

Assemble the aluminum rod onto the base and lock it with two M3 countersunk screws

Assembling the neon light strip section

- a. Clip the top light strip to the aluminum pole.
- b. Next, insert the plug of the bottom neon light strip.
- c. Then clip the bottom neon light strip onto the aluminum pole.
- d. Finally, clip the rest of the neon light into the aluminum pole.

The entire lamp assembly is completed

Setting Up The System

1. Download the Decktok App from APP Store in Apple iPhone / APP market in Android mobile phone.

2. Connect to a 2.4GHz WiFi network and turn on your smartphone's Bluetooth.
3. Long press the on/off button of the control box for 5 seconds. When the red light flashes, you can open the app to connect to the network.
4. Click Add Device or click + icon on the upper right corner of the APP home page, to choose Add Device and enter the Add interface for selecting the device to be added.
5. When the device is connected to the network, the Add device interface will automatically pop up the device icon. Tap the device icon and follow the on-screen instructions to complete pairing.
