

INSTALLATION INSTRUCTIONS

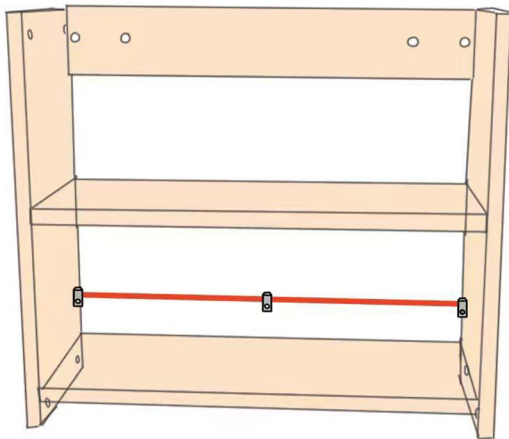

STEP 1
Secure the boards together with cam screws and cam locks.

STEP 3
Install linear shaft components on both sides.

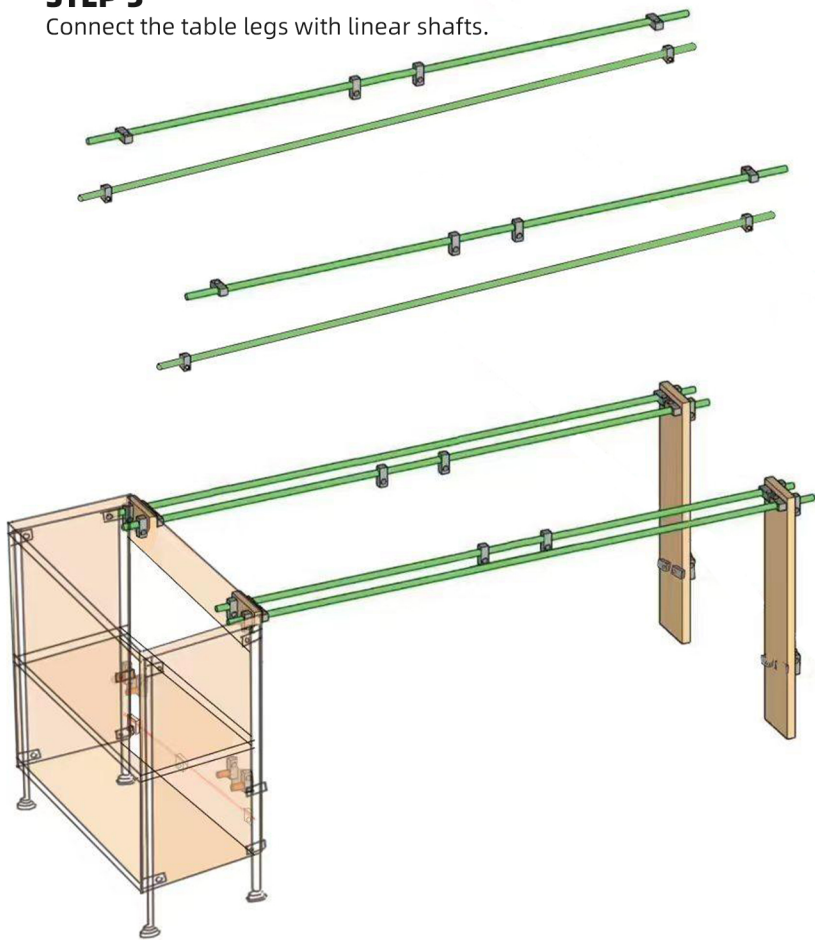

STEP 2
Install the linear shaft components as shown in the figure.

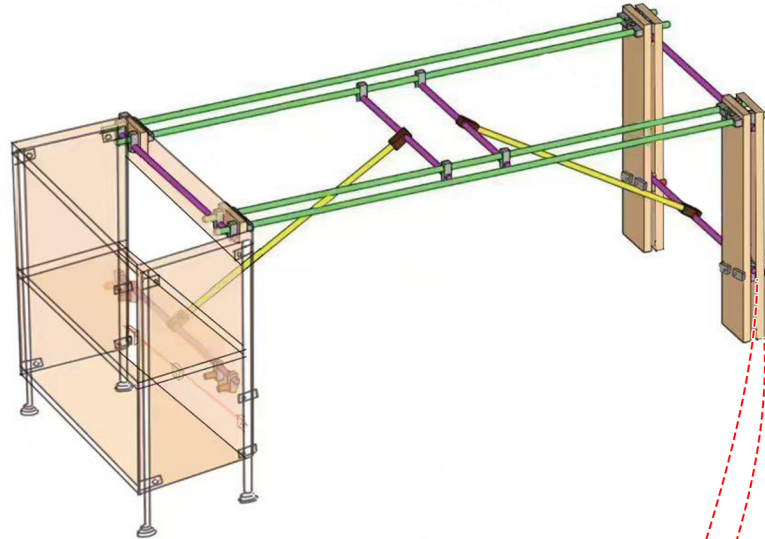

STEP 4
Install the base at the ground contact end of the linear shaft.

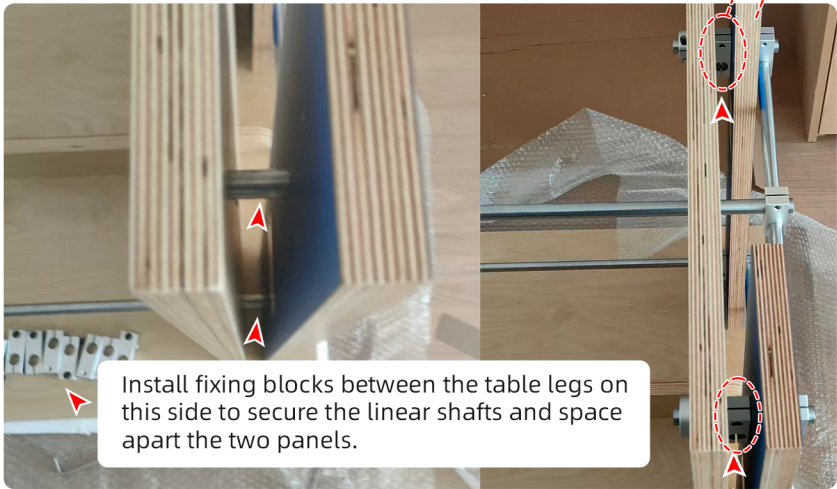

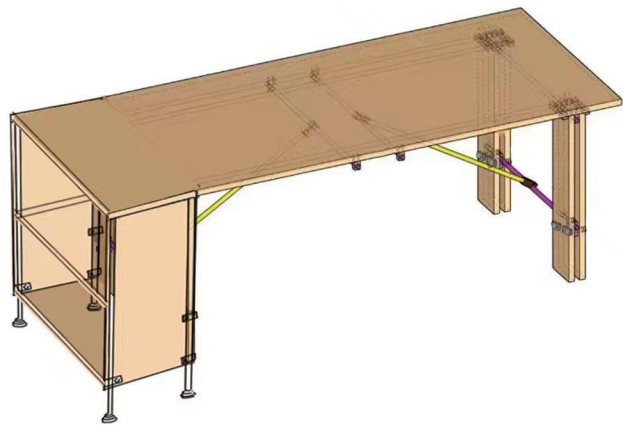

STEP 5
Connect the table legs with linear shafts.

STEP 6
Install inclined connecting rods and outer table leg panels.

STEP 7
Install the tabletop lastly, installation completed.

Install fixing blocks between the table legs on this side to secure the linear shafts and space apart the two panels.
