| Power levels               | 9 |

## Technical Features

Front-center - Ceramic - single - 1.00 kW - Ø 14.8 cm  
Rear-center - Ceramic - single - 1.40 kW - Ø 18.4 cm

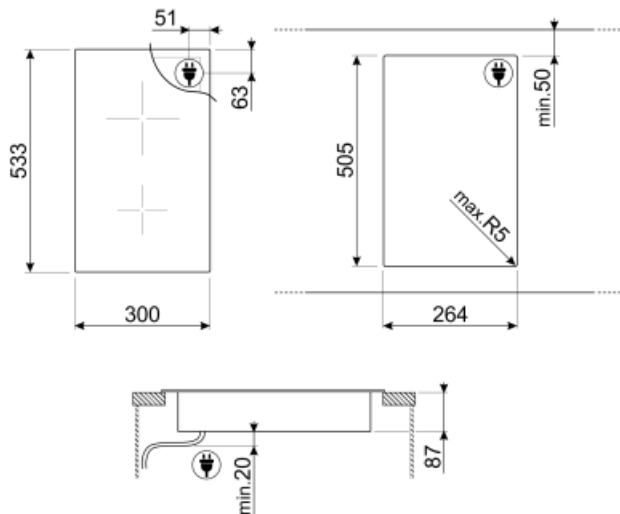

Residual heat indicator Yes

Automatic switch-off in case of over-heating Yes

Automatic switch-off in case of overflow Yes

## Electrical Connection

|                     |              |                                 |                   |
|---------------------|--------------|---------------------------------|-------------------|
| Nominal power       | 2400 W       | Type of electric cable supplied | Yes, Single phase |
| Current             | 22 A         | Frequency                       | 60 Hz             |
| Voltage             | 120 V        | Power cord length               | 47 1/4 "          |
| Electric cable type | Single phase | Terminal box                    | 3 poles           |

## Not included accessories

---

### SCRP

Induction and ceramic hobs and teppanyaki scraper

---

## Symbols glossary (TT)

---

- |  |   |   |   |
|--|---|---|---|
|  | Power booster: option allows the zone to work at full power when very intense cooking is necessary.   |  | Ultra-low profile: Installation of product with flat edge - height of 1 mm.   |
|  | Touch control   |  | Overheat protection: The safety system that automatically turns off the hob in case of overheating of the control unit. |
|  | Glass ceramic: The base of the hob is made glass ceramic. Heating is performed by the heating elements Hi-Light.  |  | Overfill protection: The special overfill protection shuts down the stove in the presence of overflow of liquids.       |
|  | Indication of residual heat: After the glass ceramic hob is switched off the residual heat indicator shows which of the heating zones still remains hot. When the temperature drops below 60 ° C, the indicator goes out. |   |   |
