 NOTES: Our products are made of chrome plated/powder coated carbon steel. In order to keep products surface please protect it against some corrosive substances, such as acid, alkali etc.

Assemble Instruction

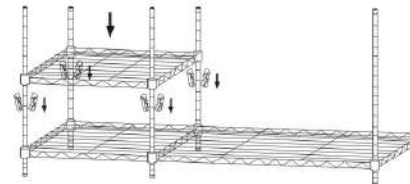

Step1: Screw the Adjustable legs into the Down-poles in a clockwise direction (The up-pole has a black plastic end cap at one end and the down-pole should have an adjustable leg attached).

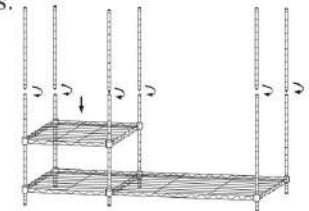

Step2: Snap one set of clips into the post groove (with the small tapered side facing up) on a proper position, and then insert the down-poles into one piece of shelf with 6 sleeves.

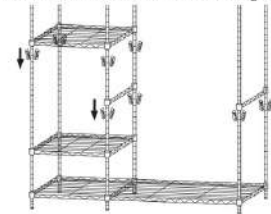

Step 3: Snap the clips at your next desired shelf height onto four closer poles among. Slide one piece of shelf with 4 sleeves onto the place of clips.

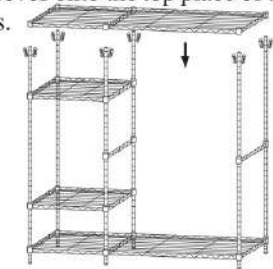

Step 4: Screw the up-poles into the down-poles using the connectors which should already be screwed into one of the post halves.

Step 5: Assemble the two support rails on the same height of posts at the right place with clips, then repeat step 3 to install the other piece of shelf with 4 sleeves at a proper height.

Step 6: Assemble the remaining piece of shelf with 6 sleeves onto the top place of the poles with clips.

Step 7: Put the three hangers in the right place of the shelves (using hooks attached) and support rails (using screws).

Step 8: Screw the adjustable legs in or out at the bottom of poles to attain proper leveling. Garment Rack is now completely assembled.
