

User Manual

Pendant Light

Introduction

Thank you for purchasing our lamp, please read the following instructions carefully before use.

Cautions

1. When opening the package with a sharp tool like a utility knife, take care not to damage the internal components.
2. Carefully remove all packaging materials and keep them for future use.
3. Keep all hardware parts and packaging out of the reach of small children.
4. Do not allow children to play with this product.
5. Please make sure that the voltage is 100-120V, which is standard for US. This product can only be used between 100-120V.
6. Please check whether the packing list is complete.

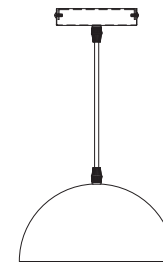

Parameter

Lamp

B. Lampshade x 1

C. Bracket x 1

D. Screw x 3

E. P3 Terminal x 4

F. Nut x 1

G. Bulb x 1

Installation steps

Pre-Installation Warning: Always disconnect the power supply before installing the light to avoid the risk of electric shock.

- ① Unscrew the screws from the lamp (A1), then remove the hanging board (A2).
- ② Secure the hanging board to the J-BOX with screws (D).
- ③ Loosen the grommet and pull the power cord to determine the required height (maximum pullable length: 1.5 meters), then tighten the grommet to secure the power cord.
Match the wires:
 1. Black wire → Connect to Hot (Live) wire (typically black or red).
 2. White wire → Connect to Neutral wire (typically white).
 3. Bare copper wire → Wrap the ground wire of the J-BOX around the green screw (GND) of the mounting bracket before connecting it to the ground wire of the light fixture.Secure all connections with P3 terminals (E) (wire connectors) to prevent loosening.
- ④-⑤ Align the lamp with the hanging board and tighten with screws on both sides.
- ⑥-⑦ Attach the bracket (C) to the lamp holder and secure with nut (F).
- ⑧-⑨ Install the bulb (G) in the lamp holder and the lampshade (B) in the bracket.
