Into the Labyrinth 1

D2776S55512-4725

Into the Labyrinth 1 is an intriguing work on canvas that considers the realm of hyperabstraction. Transformative power is achieved by the clever use of reflected and refracted light, creating dynamic movement as well as a sense of deep depth. The dreamlike motif is interrupted by intentionally visible brushwork. A unique color palette in shades of lilac, grape, and cerulean fills the picture plane, while a stroke of illuminated white pierces the composition providing the gaze with a sharp focal point. An engaging addition to ART by TA, Into the Labyrinth 1 is a masterful study of color, light, and technique.
