

Assembly Instructions

Caution : You must read this before you proceed.

ARTIFICIAL TREE

Part List

Label	Picture	Description	QTY
A	 A line drawing of a tree trunk in a pot. The trunk is thick and tapers slightly towards the top, with a small branch starting to emerge from the side. The pot is a simple, shallow, cylindrical shape.	Bottom Tree Trunk	1
B	 A line drawing of the middle section of a tree, showing the trunk and the lower branches. The trunk is thick and tapers, with several branches extending outwards and upwards, each ending in small, delicate flowers or leaves.	Middle Tree Trunk & Branches	1
C	 A line drawing of the side branches of a tree. The branches are thick and extend outwards and upwards, each ending in small, delicate flowers or leaves. The drawing shows the branching structure without the trunk.	Side Branches	1
D	 A line drawing of the highest branches of a tree. The branches are thick and extend outwards and upwards, each ending in small, delicate flowers or leaves. The drawing shows the branching structure without the trunk.	Highest Branches	1

Assembly Preparation

Before
Beginning

- Read instructions, cover to cover-

- Have 2 adults on hand for assembly-

- Do not assemble on flooring or carpet-

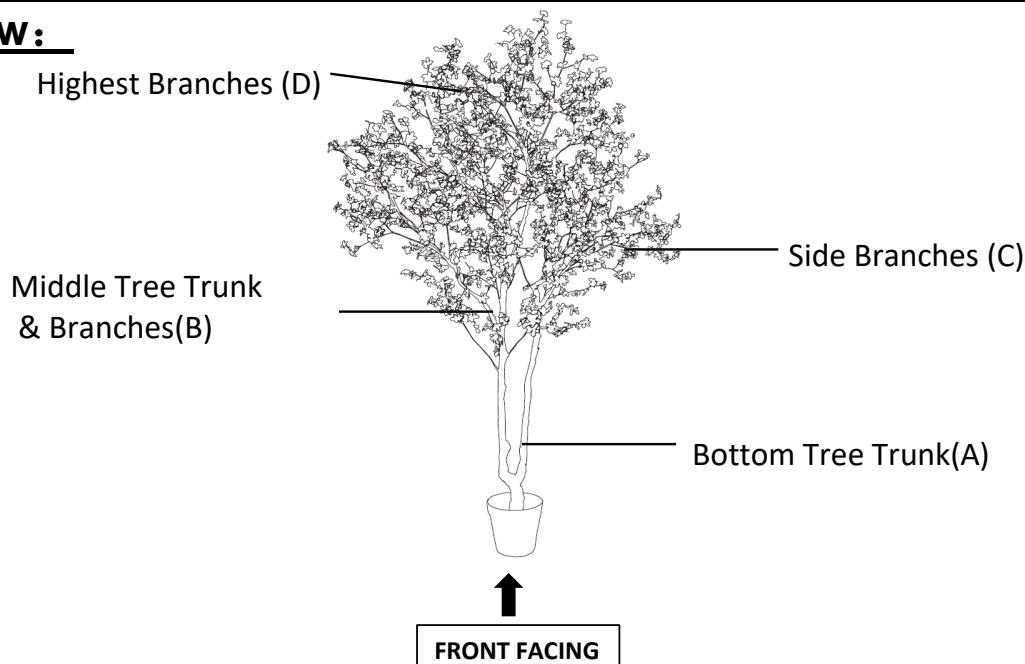

- Assemble on a clean non-marring surface (packing foam)-

- Save all packaging until finished-

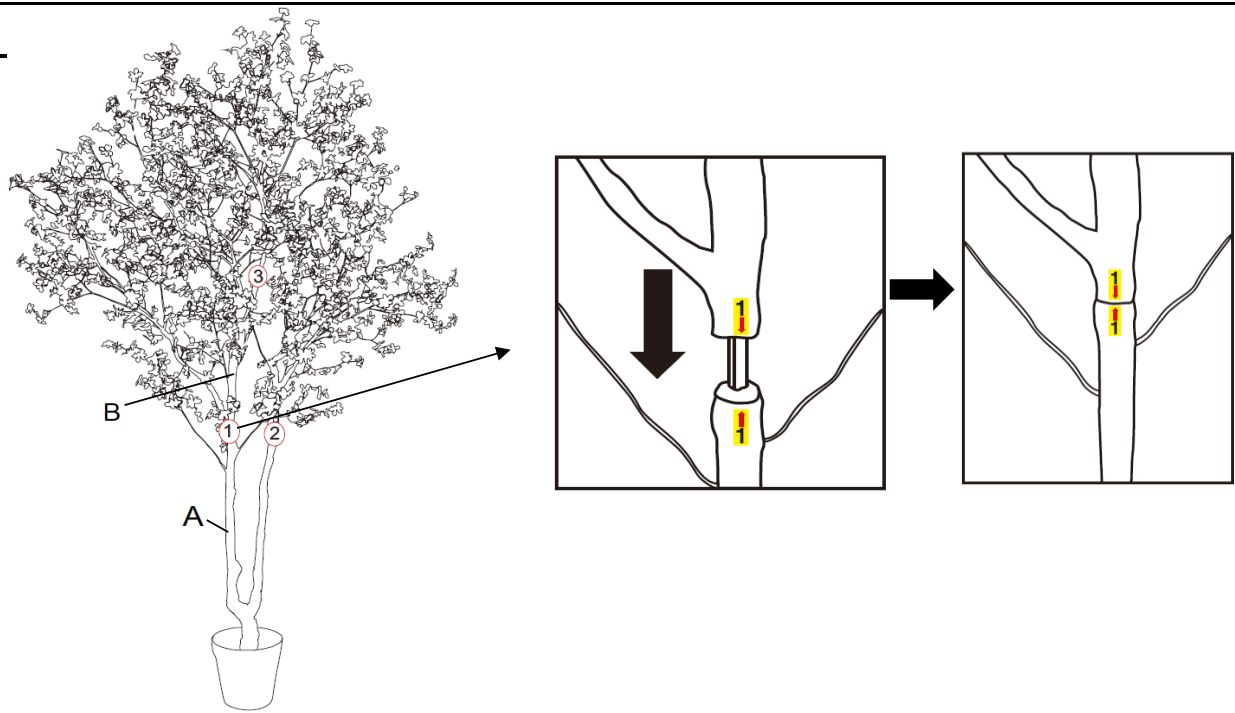

Assembly Steps

Overview:

This Artificial Tree has multiple parts and may require up to 30 minutes to assemble. To give you an overview of the Artificial Tree parts, the above picture is to help you put the various parts into perspective. Please read through the instructions below to familiarise yourself with the parts and steps before assembling.

Step1

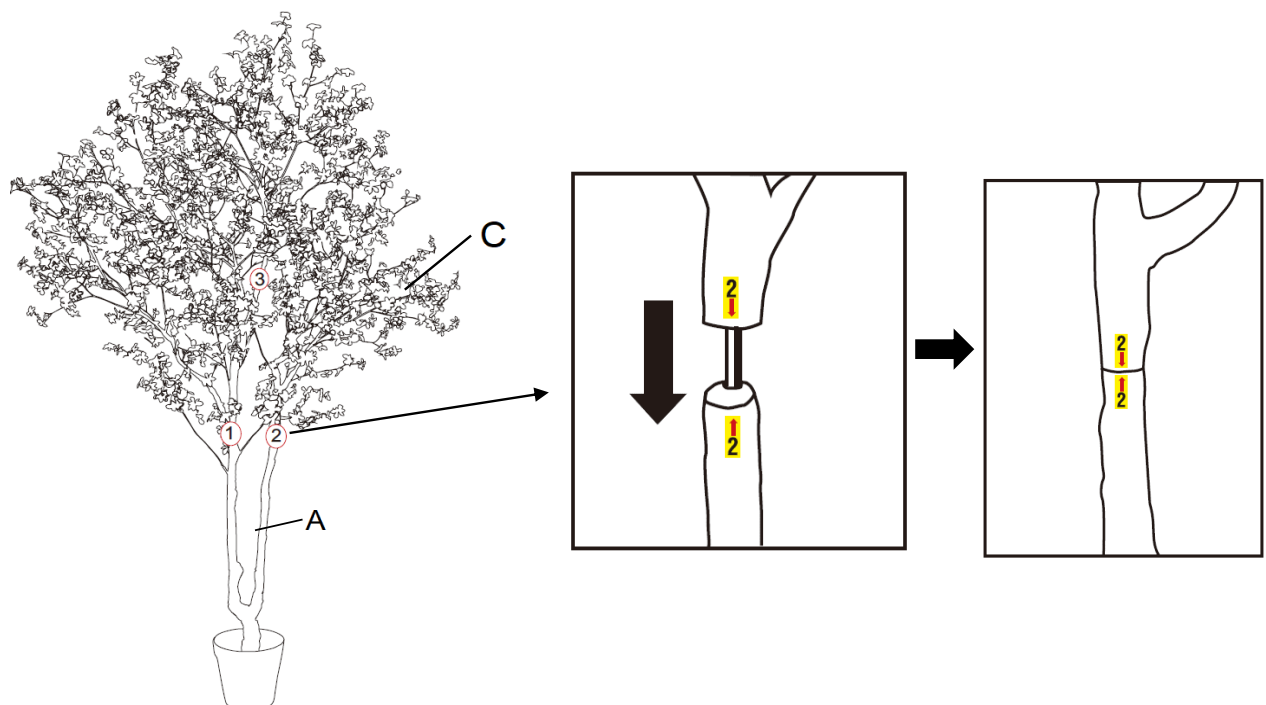

Place all parts on a soft surface to avoid any scratches or damage to the product.
Attach the Middle Tree Trunk & Branches(B) to the Bottom Tree Trunk(A) by inserting the iron tube on the Middle Tree Trunk & Branches(B) into the mounting position on the Bottom Tree Trunk(A).

Note: Match-up the label "1" on the Middle Tree Trunk & Branches(B) and the Bottom Tree Trunk(A) before inserting.

Note: Shape the tree branches of the Middle Tree Trunk & Branches(B) before assembling.

Step2

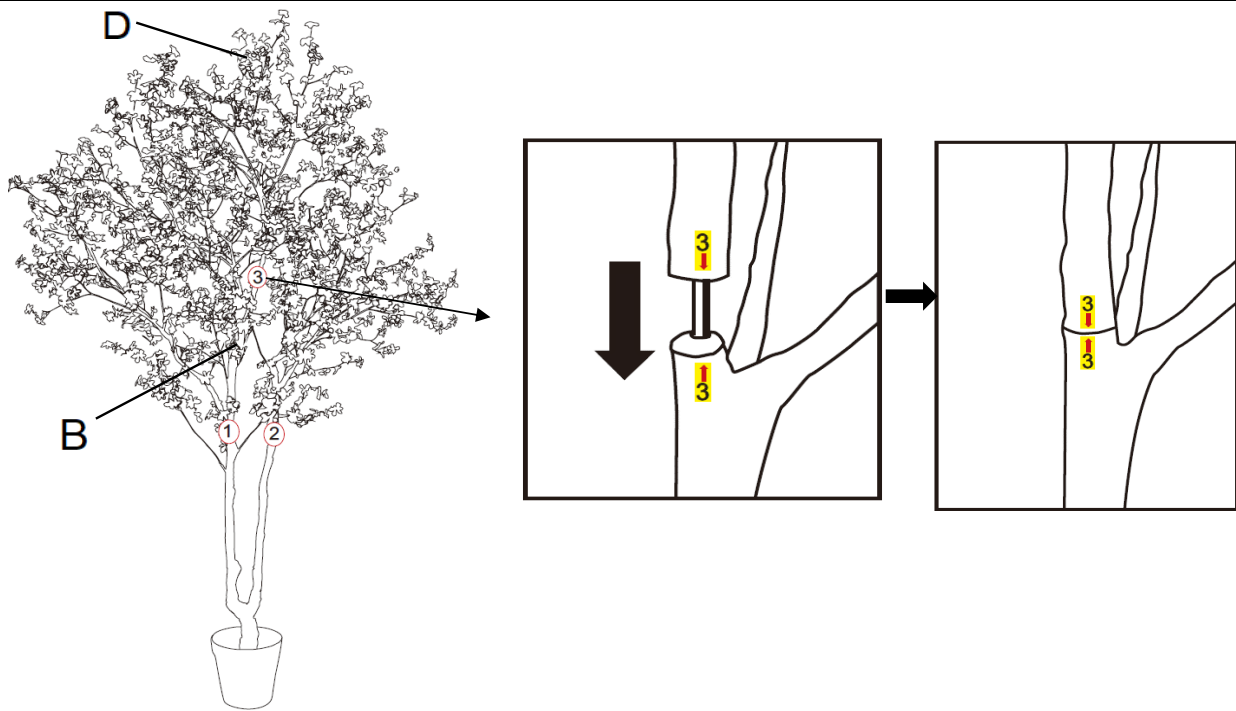

Attach the Side Branches(C) to the Bottom Tree Trunk(A) by inserting the iron tube on the Side Branches(C) into the mounting position on the Bottom Tree Trunk(A).

Note: Match-up the label "2" on the Side Branches(C) and the Bottom Tree Trunk(A) before inserting.

Note: Shape the tree branches of the Side Branches(C) before assembling.

Step3

With the assistance from a second adult, attach the Highest Branches (D) to the Middle Tree Trunk & Branches(B) by inserting the iron tube on the Highest Branches (D) into the mounting position on the Middle Tree Trunk & Branches(B).

Note: Match the label "3" on the Highest Branches (D) and the Middle Tree Trunk & Branches(B) before inserting.

Note: Shape the tree branches of the Highest Branches (D) before assembling.

Step4

Inspect and make sure all parts are connected, locked and fully secured into position. The Artificial Tree is ready to be used.

This Artificial Tree can only be used on a flat, level surface.

Note: It is recommended to heat the labels with a hair dryer and then tear them off to avoid leaving gel marks on the tree.

Care & Maintenance

-  ● Do not put hot items directly on plants surface.
 -  ● Do not clean plants with harsh cleansers or polish.
 -  ● Do not place plants under direct sunlight.
 -  ● Do not place plants near heating or cooling vents.
 -  ● For indoor use only.
 -  ● Move your plants regularly to avoid concentrated fading in one area.
 -  ● Swipe a feather duster a few times through foliage to break up and pull the dust layers.
 -  ● Stains may be removed with a mixture of white Vinegar / mild soap solution and damp cloth.(If it is silk don't use any water,soap or Vinegar solution, use silk plant cleaner).
-
-  ● Dust and pick-up spills using a clean, non-colored, lint-free cloth.
