

Installation steps:

1. Screw the light poles to the central hub base.
- 2-4. Determine the wanted height or look of the fixture with the provided stems, and assemble them by screwing them together.
5. Attach the mounting bracket to the outlet box using two mounting screws.
6. Pull out the source wires from the outlet box. Make wire connections using wire nuts as follows:
 - Connect the white wire from the fixture to the white wire from the power source.
 - Connect the black wire from the fixture to the black wire from the power source.
 - Connect the ground wire to the house grounding wire with a wire nut.
 Carefully tuck the wires back into the outlet box.
- 7-8. Attach the canopy onto the outlet box and tighten it with two ball nuts.
9. Install the bulbs. (Bulb not included)
- 10-12. Attach the glass shade onto the socket and tighten it with the flat nut.

Notice:

1. Before installation, please check whether the parts are complete and whether the lamps are in good condition.
2. Cut off the power supply before installation, and then perform wiring.
3. Install the lamp body first, and then install the power supply.
4. Installation and maintenance must be carried out by professional and technical personnel.
