LED STEP LIGHT

NICOR's LED Step Lights are a great complement for your residential and commercial projects. This step light not only provides a touch of safety, but it offers a warm, natural glow making it a perfect accent for any project. Need more flexibility? This LED step light has been designed with a photocell built right in. Now you can save even more energy and have light only when you need it. No need to turn on a switch, this fixture does it for you. For a truly customizable choice, this LED step light also offers paintable faceplates making it versatile for any residential or commercial application. Wet location approved for indoor and outdoor use.

- Can be mounted in either horizontal or vertical direction.
- Fits directly into most single gang junction boxes.
- Additional faceplates available in black and oil-rubbed bronze.
- Wet location rated for indoor or outdoor use.
