Plates and iron components

Assembly tool kit

Instruction manual

Package Contents

1.Avoid long-term direct sunlight exposure

2.Stay away from fire

3.Keep away from sharp objects

4.Keep infants/children away from assembly parts to avoid choking and suffocation.

5.Keep away from corrosive substances

6.Pay attention to avoid over-tightening fasteners, or they may induce cracking within the board.

7.Prevent objects from being damaged by immersion in water

8.Prevent object collision and damage

9.Be careful to avoid collisions

Installation of Cams and Pins

Screw the pin into the hole. To set the cams correctly, ensure that the arrow on the cam is opening o the hole of the pin it is locking. Lock the cam by tturning the cam head with a screwdriver until it is tightened. Please do not use an electric screwdriver to assemble the unit.

Installation of Cams and Pins

1. Matters needing attention

Be sure to use the proper screws to avoid damaging the parts

Wrong screws can cause the plank to crack

The right screw is the right size

Matters needing attention

- (1) When installing the screws in the installation step, the screws do not need to be tightened. After this installation step is confirmed and the holes are aligned, then tighten all the screws.
- (2) If the screws are tightened during the installation process, it will cause problems such as misalignment of the screw holes and misalignment of the board in subsequent installations.

Do not tighten the screws

Screw down
