Pastels Bring Peace 1

D2529S50575-4085

Pastels Bring Peace 1 is part of a series of two large abstract paintings on canvas. Drawing inspiration from the existential works of Clyfford Still, an abstract expressionist, this work relies on a densely covered picture plane that gives the illusion of walking through a field of clouds. A soft and muted color scheme in pastel peach, baby blue, and pale indigo punctuated with dabs of charcoal provide the viewer with a sense of depth.

A singular, vertical form weaves through clouds of pastels, perfectly symbolizing this work's overarching themes of solitude, human resilience, and natural opposition. Part of the carefully curated ART by TA Collection and a beautiful companion piece to Pastels Bring Peace 2.
