

**INSTALLATION**

- Please read these instructions carefully before starting installation and retain for future reference. Please leave these instructions with the end user.
- Remove all packaging and check the product for missing parts and damages before starting the installation.
- Any alterations made to this product and its fittings may infringe the water regulations and will invalidate the guarantee.
- We strongly recommend the use of a qualified and registered plumber.
- In new buildings it is recommended to water fill the traps to ensure toxic gases do not corrode the surface of the taps and toilet seats. It is recommended that the room is well ventilated.
- Thoroughly flush through all pipe work prior to the installation of terminal appliances, e.g. Shower heads, taps, inlet valves etc.
- Factory fitted components such as inlet and outlet valves should be checked for position and tightness, they may have loosened in transit. Check the operation of the valves.

- Periodic cleaning and maintenance should be used to avoid the build up of damaging lime scale deposits.
- Bathroom harsh cleaning agent residuals may damage some materials, such as seat hinges and plastic or chrome components.
