

Remote Control Pairing (one or group of fixtures available)

The remote control is paired by pressing and holding this button until the light blinks 3 times within 10 seconds of powering on. Normally, the light fixture and remote control are already paired.

by pressing and holding the middle button within 10 seconds of powering on, the light fixture will start flashing, indicating that it is ready to enter pairing mode with a mobile phone or smart device (such as Amazon Echo dot).

By toggling the wall switch on and off three times, the fixture will start flashing, it's also ready to enter pairing mode.
