

Assembly & Installation Instructions

PREPARATION before INSTALLATION:

1. If an existing fixture is being replaced, remove it and note to which wire in the outlet box the original fixture was attached.
2. Before discarding the carton, double-check the packaging to make sure all parts have been found.
3. This fixture was designed to be mounted on an octagon outlet box. The box must be securely mounted to the structure of the building.

IMPORTANT:

1. **WARNING** - Disconnect power before relamping or wiring the fixture. Turn off the entire electrical circuit to which the lighting fixture is attached.
2. Installation and maintenance of this fixture should be completed by a licensed electrician.
3. Failure to install the fixture correctly could result in serious injury or death.
4. Read all instructions before starting installation.

INSTALLATION STEPS:

1. Remove the mounting bracket assembly from the ceiling plate, then secure the bracket to the junction box with the junction box screws;
 2. Use wire nuts to connect the house input wires to the output wires (Connect black house wire (L) to black fixture wire (L); Connect white house wire (N) to white fixture wire (N); Connect house ground wire to the fixture's grounding terminal) ;
 3. Use the lock nuts removed in the first step to secure the light fixture to the mounting bracket;
 4. Install the bulb (bulb not included);
 5. Attach the glass shade to the light fixture in a clockwise direction;
 6. Restore power to check whether the fixture is functioning properly.
