Canopy Installation

ENGLISH

To be installed by a certified technician!

Ensure that the power has been disconnected at the source.

A Connect the mounting bracket to the junction box (must!). Add screws as needed.

B Connect the wires.

C Align the canopy with the screws push up and rotate. **C**

D Tighten all the screws.

NOTE: do not release the canopy until the screws have been tightened.

- 1) Feed wire through top of pendant until it exits out the bottom.
- 2) Thread part **A** onto the end of the wire.
- 3) Insert part **B** (LED bulb) into part **A** until it is fully seated.
- 4) Lower the pendant until it sits on top of Part **A** and then thread part **C** (frosted diffuser) into the pendant.
- 5) Clip part **D** (stabilizer) onto the wire and slide it down into the hole on the top of the pendant. -Very important, or pendant will not sit level.
- 6) For multiple pendant fixtures, repeat. -Please note that the LED bulbs run in series and the fixture will not function until all LED bulbs are installed.
- 7) Re-connect the power source.
