INSTALLATION PRECAUTIONS / PRECAUCIONES DE INSTALACIÓN

- "To ensure the durability and stability of our furniture, we have chosen not to pre-drill holes for certain screws. Instead, we have marked the positions where screws should be installed, ensuring a secure and tight fit that meets your specific needs."
- "If we pre-drill the specific hole before inserting the certain screw, the screw will not hold tightly. This is because the material that the screw needs to grip onto is removed during drilling, so it won't have enough resistance to stay secure."
