The following installation methods will provide better wind resistance performance, extend the product's lifespan, and help you maximize its value, delivering an even better user experience.

1

If the deck you are installing is made of hardwood and has a depth exceeding 40mm, you can use ST8*35mm screws to secure it in place. (This hardware is not included with the product, so you will need to purchase it separately.)

2

The best option is to fix it on a concrete surface. You can use the expansion bolts that are pre-configured with the product to secure it in place.
