Product Description: With a world-traveled pedigree and an inviting silhouette inspired by American and European antiques, the Archivist Sideboard offers hospitality for your guests and storage for serving essentials. This stunning piece is crafted with Pecky Pecan Veneers with a Bluestone top as a designer detail. The pecan-colored rustic finish is complemented by antique-inspired hardware in a time-worn bronze finish. Many functional features include a pull-out surface and four doors with an adjustable wood shelf behind the right and left doors and an adjustable wood shelf behind the center doors and a drawer with a silverware tray.

Collection Features: A design archive that captures epic European and American style elements spanning continents and centuries, Archivist exudes a larger-than-life ambience. With a world-traveled pedigree, Archivist embraces both grand opulence and beloved, comfortable and simple forms.

Status: Active

Finish: A soft casual finish over Pecky Pecan gives a rustic, character-filled and authentic look. The finish is complemented by antique-inspired hardware including kick plates, tear-drop-shaped pendants and ring pulls with back-plates in a time-worn bronze finish. Distressing includes rasping, chiseling, chain and cow-tailing.

Features: Bluestone top

Pull out surface

Four doors

Adjustable wood shelf behind right and left doors

Adjustable wood shelf behind center doors

One drawer with silverware tray

Material: Pecky Pecan Veneers and Bluestone

Drawer Construction: Hooker Furniture offers full height, full depth and full width drawers for maximum storage capacity. All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use. Plywood drawer bottoms are attached to plywood drawer sides for strength and durability. Metal side guides or wood on wood guide systems operate smoothly.

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.

Expected Availability: 04/20/2022

Important Use Information: We recommend the use of felt tabs and coasters to protect the stone surface. All stone tops, especially those around water should be sealed or polished before use and on a regular basis to keep the porous stone from absorbing any stains from water, soap, wine, colas, etc. Wipe up spills immediately, since any liquids allowed to seep in may not be able to be removed and may etch the surface, causing discoloration. Most home improvement stores have a wide range of products for these applications due to the sale of stone counter tops.
